LEGISLATIVE COUNSEL'S DIGEST

AB 127. Nunez: Education facilities: Kindergarten-University Public Education Facilities Bond Act of 2006.

(1) Existing law, the California Constitution, prohibits the Legislature from creating a debt or liability that singly or in the aggregate with any previous debts or liabilities exceeds the sum of \$300,000, except by an act that (a) authorizes the debt for a single object or work specified in the act, (b) has been passed by a $\frac{2}{3}$ vote of all the members elected to each house of the Legislature, (c) has been submitted to the people at a statewide general or primary election, and (d) has received a majority of all the votes cast for and against it at that election.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires the State Allocation Board to allocate to applicant school districts, prescribed per-unhoused-pupil state funding for construction and modernization of school facilities, including hardship funding, and supplemental funding for site development and acquisition.

This bill would enact the Kindergarten-University Public Education Facilities Bond Act of 2006 to authorize \$10,416,000,000 of state general obligation bonds to provide aid

to school districts, county superintendents of schools, county boards of education, the California Community Colleges, the University of California, the Hastings College of the Law, and the California State University to construct and modernize education facilities.

The bond act would become operative only if approved by the voters at the November 7, 2006, statewide general election, and would provide for its submission to the voters at that election.

The bill would also submit to the voters for approval an authorization to use the proceeds of any bond act, approved on or before January 1, 2006, that are designated for joint-use facilities to be used for other related school facilities projects.

(2) This bill would specify that certain provisions of the bill shall become operative only if the Kindergarten-University Public Education Facilities Bond Act of 2006 is approved by the voters at the November 7, 2006, statewide general election.

(3) The bill would make conforming, technical changes in related provisions of existing law.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

The people of the State of California do enact as follows:

SECTION 1. Section 17070.40 of the Education Code is amended to read:

(b) The board shall adopt regulations to determine the adjustments set forth in paragraphs (1) and (2) of subdivision (a).

17079.10. (a) For purposes of this article, an eligible pupil is a pupil who is housed in a portable classroom, except portable classrooms used for purposes of the Class Size Reduction Program set forth in Chapter 6.10 (commencing with Section 52120) of Part 28, at an eligible school.

(b) The board shall apportion an overcrowding relief grant to districts on behalf of each eligible pupil equal to the appropriate per-unhoused-pupil grant amount pursuant to Section 17072.10.

The number of overcrowding relief grants apportioned shall be subject to the following limitations:

(1) The number of grants apportioned on behalf of an eligible school shall not exceed the number of pupils whose removal from the pupil density calculation would reduce the density of the eligible schoolsite to 150 percent of the schoolsite pupil population density recommended by the Superintendent as of January 1, 2006.

(2) A district shall not receive more grants than the number of pupils housed in portable classrooms that were included in the initial new construction eligibility determination of the district pursuant to Article 3 (commencing with Section 17071.75).

17079.20. (a) The board shall require that applications for funding pursuant to this article be used for an equivalent number of permanent new school construction classrooms to replace the portable classrooms upon which the determination of the number of eligible pupils is based. The board shall also require the application to describe how the project will relieve overcrowding at the eligible school.

(b) The board shall create a list of projects eligible for funding and shall approve applications semiannually on a schedule determined by the board.

(c) The board shall require that applicant school districts comply with all of the same conditions otherwise required for new construction funding pursuant to this chapter with the exception of subdivision (b) of Section 17071.75.

(d) The board shall not apportion funds for a project pursuant to this article any portion of which involves the construction, acquisition, or transportation of portable classrooms for any school in the school district.

(e) In the event the funding available to the board for purposes of this article is less than the amount necessary to fund all eligible applications, the board shall prioritize and fund the projects on the basis of the pupil density of the eligible schools.

17079.30. (a) The board shall require both of the following as conditions for receiving funding pursuant to this article:

(1) Within six months after the date of initial occupancy of the permanent school facilities constructed pursuant to this article, the school district shall remove from the eligible school, and

remove from service as classrooms in the district, the portable classrooms used for determining the number of eligible pupils.

(2) The new school construction funding provided pursuant to this article shall result in a reduction in the total number of portable classrooms in the school district.

(b) This section does not preclude the school district from using the portable classrooms removed from eligible schools for child care or preschool programs, if those portable classrooms are not located at an eligible school.

(c) This section does not apply to eligible schools operating on double session schedules in an elementary school district in a county of the second class, as set forth in Section 28023 of the Government Code.

SEC. 13. Section 17261 of the Education Code is amended to read:

17261. The State Allocation Board shall obtain construction plans for school buildings appropriate for school districts in various climates and geographical conditions of the state. The plans shall be composed of plans designed to meet the needs of school districts requiring school buildings of various sizes. The plans may include landscape suggestions. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(b) It is the intent of the Legislature that the University of California and the California State University annually consider, as part of their annual capital outlay planning process, the inclusion of facilities that may be used by more than one segment of public higher education (intersegmental), and, that on or before May 15th of each year, those entities report their findings to the budget committees of each house of the Legislature.

✓ 101052. The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

101053. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

✓ 101054. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

✓ (b) The sum necessary to carry out Section 101057, appropriated without regard to fiscal years.

✓ 101055. The board, as defined in subdivision (b) of Section 101051, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 101051, shall execute any documents required by the

Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

101056. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

101057. (a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2006 University Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, or the California State University shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college.

101058. All money deposited in the 2006 University Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

✓ 101059. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law.
